Acknowledgments

This report was prepared in the Business Division under the supervision of **Harvey Kailin**, Chief, and **Henry Wulff**, Assistant Chief for Census Programs.

Robert Viehman, Chief, Retail Trade Branch, was responsible for the retail trade segment of the Census of Business. **Philip Chenoweth** was in charge of reviewing, selecting, and coding the Federal income tax reports for non-employer establishments.

Gerda Mones was the division's liaison officer with the Jeffersonville Operations Office and supervised the division's professional staff at that office. **Gerald Post** contributed to the entire project, particularly in the analysis and collection of reports for the large and complex corporate organizations. **Robert W. Scheidel**, **Patricia A. Clark**, **Mabel N. Foster**, and **C. Daniel Bremer** also participated in the analysis of data and preparation of the report. Staff assistance was provided by **Ralph S. Woodruff**, Assistant Division Chief, Research and Methodology, and **Max Shor**, Assistant Division Chief, Staff and Special Projects.

Systems and procedures were developed in the Economic Operations Division, **M. D. Bingham**, Chief, by **Sol Dolleck**, Assistant Chief for Systems, assisted by **Samuel Schweid**, **Nathan Lesowitz**, and **Jack Margolis**. **Heyward D. Glisson** developed and supervised the electronic computer programming under the direction of **John S. Lannan**. Quality control plans and procedures were developed and supervised by **Herman H. Fasteau**, assisted by **George Minton**. Others who participated in the development of systems and procedures were **Jack Scharff**, **Irving Weiss**, **Jerry S. Cooper**, **William W. Perry**, **Maxwell Jeane**, **Peter Ohs**, and **Carl Mueller**.

Processing of retail reports was performed at the Jeffersonville Operations Office under the direction of **Robert D. Krook**. **Gene P. King** and **Waller Wynne, Jr.**, were directly in charge of the Economic Census Operations Branch. Data processing and related operations were performed by the Data Processing Systems Division, **Robert F. Drury**, Chief, and **R. M. Micol**, Assistant Chief.

Louis Greenberg, in his capacity as Census of Business Coordinator, made important contributions to the planning and operational phases of the work.

Introduction

AUTHORITY AND SCOPE—The Census of Business is required by law under 13 U.S.C., sections 131, 191, and 224. The 1963 census covered businesses in retail trade, wholesale trade, selected services, dental laboratories, and public warehousing operated in the United States, Guam, and the Virgin Islands. A separate 1963 Census of Business and Manufactures for Puerto Rico was conducted jointly with the Commonwealth Government. The figures in this report include those issued previously in report series BC63-RS. For definitions, see appendix A.

KINDS OF BUSINESS COVERED—Retail trade as defined in the Standard Industrial Classification (SIC) Manual¹ includes all establishments primarily engaged in selling merchandise to personal, household, and farm users. In this volume, it also includes liquor stores operated by State and local governments. Retail trade excludes post exchanges, ship stores, and other similar establishments operated on military posts by agencies of the Federal Government. A separate presentation of the data for such establishments is given in chapter 1, table 19, of this volume. Data for administrative offices, warehouses, and other units which service and are auxiliary to retail establishments within the same organizations are excluded from most of the tables in this volume but are presented in tables 26 to 29 of chapter 9. See appendix B, Explanation of Terms, for definitions of the kind-of-business categories for which data are shown in this volume.

METHOD OF ENUMERATION—For purposes of coverage in the 1963 Census of Business, retail establishments were divided into two categories—those with some paid employment during 1963 (i.e., “employer” universe) and those with no paid employment during 1963 (i.e., the “nonemployer” universe). The method of obtaining census information for these two groups is described below.

Enumeration of “Employers.”—Information for establishments with some paid employment during 1963 was obtained by means of a mail canvass. Report forms were mailed to all business firms included in the active records of the Internal Revenue Service as subject to payment of Federal Insurance Contributions Act (FICA) taxes (i.e., employers of

one or more persons) and which were classified in the records of the Social Security Administration (SSA) as wholly or partially engaged in retail and wholesale trade, and in manufacturing and mineral industries. Also included were those classified in major groups 70 (except 702 and 704), 72, 73, 75, 76, 78, and 79 in the service industries portion of the SIC Manual; in SIC industry 8072, dental laboratories; and in public warehousing, SIC major group 42 (except 421). In addition, report forms were mailed to all establishments which the SSA had not classified by kind of business prior to mailing of census report forms. Each establishment was mailed a report form appropriate to its SSA classification (for those cases for which SSA classification had not yet been established, a general purpose form was used), but its census classification was determined by replies to questions on the census report form.

Enumeration of “Nonemployers.”—Information for this group of establishments was obtained from the 1963 Federal income tax returns of retail businesses other than those represented in the active FICA records of the Internal Revenue Service. Although made up of a large number of establishments the nonemployer segment accounts for less than 5 percent of total retail sales.

Data were compiled from only one-half of the nonemployer tax returns and were multiplied by two to establish census totals. Only those establishments were included here which reported a sales volume of \$2,500 or more during 1963 or, having been in operation for less than the full year, reported sales which would have reached a total of \$2,500 or more on an annual basis.

Based on a probability sample of all 1963 business income tax returns on Schedule C of Form 1040 and Form 1065, it is estimated that about 40,000 nonemployer establishments, of which about 22,000 were service establishments, were omitted from the census of business tabulations because of late filing. The effect of these omissions on the total sales was negligible, accounting for about one-third of 1 percent of the total sales. Studies of retailers indicate a probability that there is an additional minor omission amounting to less than 1 percent in the total service volume, due to business operations not being completely identified in the tax returns.

COMPARISON OF THE 1958 CENSUS WITH THE 1963 CENSUS—In all major respects, the 1958 and 1963 censuses were conducted under similar conditions and procedures. Strict

¹ Executive Office of the President, Bureau of the Budget, *Standard Industrial Classification Manual*, 1957, and *Supplement to 1957 Edition*, 1963.

comparability of the data for the two censuses is limited by the following factors:

1. In 1958, Alaska and Hawaii had not yet been admitted as States. Consequently, in the publications of the 1958 census the totals for the United States included the then 48 States and the District of Columbia. In the 1963 census publications, the United States totals include the 50 States and the District of Columbia. Tables in the 1963 publications which show United States totals for 1958 have been adjusted to include Alaska and Hawaii.

2. The physical area of a number of urban places for which data are shown in the 1963 census is not the same as it was in the 1958 census because of annexations and other boundary changes which have occurred since 1958.

3. In the 1963 census, for the first time, nonemployer establishments which did not operate the entire year have been included if, during the period they operated, their receipts were at a rate which would have reached an annual total of \$2,500 or more had they operated the entire year. This change increases the count of nonemployer establishments but has little effect on the total volume of sales.

4. The number of active proprietors shown in this report is based on crediting each sole proprietorship with one active proprietor and each partnership with two active proprietors if the establishment was in operation during November 1963. In the 1958 census each business was asked to report this number.

5. In the 1963 census, information was collected from employer establishments on retail sales by merchandise lines. Such information had last been collected as part of the 1948 census. These data are published in Vol. I, Retail Trade—Summary Statistics, and in separate reports as part of the subject preprint series, BC63—RS. Data for “employer” establishments are provided for 24 broad merchandise lines and a variable number of additional lines specifically oriented to a single kind of business or a group of related businesses.

6. Information on sales by merchandise lines was used in assigning kind-of-business codes and provided a more precise basis for classification than previously was available. In some cases this could have resulted in classifications which were different than would have been assigned if the information available had been limited to what was available in the 1958 census.

7. Some changes were made in the 1963 census in the individual kind-of-business definitions which are detailed in appendix A. The kinds of business involved are:

- Lumber yards, building materials dealers
- Meat markets
- General stores
- Tire, battery, accessory dealers
- Home, auto supply stores
- Eating places
- Refreshment places
- Optical goods stores
- Nonstore retailers

8. In 1963 a new method was used for assigning establishments to places. This system used a computer coding procedure based on an address reference file for the larger cities. This provided a more precise method for determining whether establishments were inside or outside of city boundaries than the previously used system which was based on respondent report of location. The new system avoids the difficulty resulting from the tendency of suburban respondents to identify their location as being in the adjacent city although actually located beyond that city's boundaries. In those cases where this procedure has resulted in significant differences, the 1958 data included in the 1963 reports have been corrected or, if that was not feasible, appropriate notations made advising of the lack of comparability.

CENSUS DISCLOSURE RULES—In accordance with Federal law governing census reports, any data which disclose the operations of an individual establishment or business organization are not published. However, the number of establishments in a kind of business is not considered a disclosure, so that this item may appear in instances where other items of information for the same kind of business or locality are withheld.

TYPES OF AREAS COVERED—The 1963 census reports provide retail trade data grouped by kind of business for a variety of geographic areas including the following:

1. In combination for the 50 States of the United States; also each census geographic region and division. (See appendix B for definitions.)

2. Each Standard Metropolitan Statistical Area (SMSA). The SMSA's included in these volumes are those which were delineated by the Bureau of the Budget, Executive Office of the President, and listed in its report **Standard Metropolitan Statistical Areas, 1964**.

3. Each county.

4. Each incorporated urban place (city, village, etc.) of 2,500 inhabitants or more. In addition, for the New England States, data are provided for towns having 10,000 inhabitants or more, or an urban population of 2,500 or more; and in New Jersey and Pennsylvania, for townships with 10,000 inhabitants or more.

5. Within each of 116 large SMSA's, for the central business district of each city of 100,000 inhabitants or more, and for approximately 1,000 major retail centers other than the central business district.

Most of the area detailed for retail trade is found in Volume II of the 1963 Census of Business. However, information for central business districts and major retail centers are presented in Volume III.

RETAIL TRADE—AREA STATISTICS

A United States summary chapter and chapters for each State, the District of Columbia, Guam, and the Virgin Islands. Statistics are presented by kind of business for counties, cities, standard metropolitan statistical areas, and for selected towns and townships in New England, New Jersey, and Pennsylvania. The kind-of-business detail varies in accordance with the number of retail establishments in an area. This volume incorporates the area preprints, series BC63-RA.

volume three

MAJOR RETAIL CENTERS STATISTICS

A summary chapter and chapters for each of 116 standard metropolitan statistical areas (SMSA's). Each SMSA chapter presents statistics for retail trade by kind of business and for hotels and motion picture theaters (a) in the entire SMSA, (b) in almost all cities of 100,000 inhabitants or more, and (c) in central business districts of these cities. Each chapter also presents statistics for the major retail centers outside the central business district showing (a) sales and establishment counts in three major subgroups of retail trade and (b) establishment counts only by kinds of business. This volume incorporates the major retail centers preprints, series BC63-MRC.

PROVISIONS OF LAW RELATING TO THE 1963 CENSUS OF BUSINESS

(From Title 13 United States Code)

SECTION 131. The Secretary shall take, compile, and publish censuses of manufactures, of mineral industries, and of other businesses, including the distributive trades, service establishments, and transportation (exclusive of means of transportation for which statistics are required by law to be filed with, and are compiled and published by, a designated regulatory body), in the year 1954 and every fifth year thereafter, and each such census shall relate to the year immediately preceding the taking thereof: *Provided*, That the censuses of manufactures, of mineral industries, and of other businesses, including the distributive trades and service establishments, directed to be taken in the year 1954 relating to the year 1953 shall be taken instead in the year 1955 relating to year 1954.

SECTION 191. (a) Each of the censuses authorized by this chapter (other than censuses of population) shall include each State, the District of Columbia, Alaska, Hawaii, the Virgin Islands, Guam, and the Commonwealth of Puerto Rico, and as may be determined by the Secretary, such other possessions and areas over which the United States exercises jurisdiction, control, or sovereignty. Censuses of population shall include all geographic areas referred to in the preceding sentence. Inclusion of other areas over which the United States exercises jurisdiction or control shall be subject to the concurrence of the Secretary of State.

(b) For censuses taken in the Virgin Islands, Guam, or any possession or area not specifically designated in (a) above, the Secretary may utilize or adopt census data collected by the Governor or highest ranking Federal official, when such data are obtained in accordance with plans prescribed or approved by the Secretary.

SECTION 224. Whoever, being the owner, official, agent, person in charge, or assistant to the person in charge, of any company, business, institution, establishment, religious body, or organization of any nature whatsoever, neglects or refuses, when requested by the Secretary or other authorized officer or employee of the Department of Commerce or bureau or agency thereof, whether such request be made by registered mail, by certified mail, by telegraph, by visiting representative, or by one or more of these methods, to answer completely and correctly to the best of his knowledge all questions relating to his company, business, institution, establishment, religious body, or other organization, or to records or statistics in his official custody, contained on any census or other schedule prepared and submitted to him under the authority of this title, shall be fined not more than \$500 or imprisoned not more than sixty days, or both; and if he willfully gives a false answer to any such question, he shall be fined not more than \$10,000 or imprisoned not more than one year, or both.

SECTION 9. (a) Neither the Secretary, nor any other officer or employee of the Department of Commerce or bureau or agency thereof, may, except as provided in section 8 of this title—

(1) use the information furnished under the provisions of this title for any purpose other than the statistical purposes for which it is supplied; or

(2) make any publication whereby the data furnished by any particular establishment or individual under this title can be identified; or

(3) permit anyone other than the sworn officers and employees of the Department or bureau or agency thereof to examine the individual reports.

Appendix B

EXPLANATION OF TERMS

Establishments—An establishment is a single physical location at which business is conducted. An establishment is not necessarily identical with the “company” or “enterprise” which may consist of one or more establishments. Census of Business figures represent a summary of reports for individual “establishments” rather than “companies.” (Enterprise statistics reports, Series ES, will be issued at a later date covering the Censuses of Business, Manufactures, and Mineral Industries.) A separate report was obtained for each location where business was conducted, including each location of multiunit organizations. Each report was tabulated in accordance with the physical location at which the business was conducted.

Where two or more activities were carried on at a single location under a single ownership, all activities generally were grouped together as a single establishment, and the entire establishment was classified on the basis of its major activity, with all data for it included in that classification. However, in cases where distinct and separate economic activities (for which different industry classification codes were appropriate) were conducted under the same ownership at a single location, and where conditions prescribed by the Standard Industrial Classification Manual for recognizing the existence of more than one establishment were met, separate establishment reports for each of the different activities were reported in the census.

In the case of leased departments, i.e., separately owned businesses operated as departments of a retail business under another ownership (e.g., a separately owned shoe department in a department store), only a single establishment, combining leased departments with the retail establishment in which they are located, is recognized for 1963 census purposes.

The “number of establishments” shown in this volume is the number in business at the end of the census year.

Sales—Sales include merchandise sold, and receipts from repairs and from other services to customers whether or not payment was received in 1963. Sales are net of deductions for refunds and allowances for merchandise returned by customers. Total sales exclude

amounts other than those received from customers, such as income from investments, rental of real estate, etc. They include local and State sales taxes and Federal excise taxes collected by the store directly from customers and paid directly by the store to a local, State, or Federal tax agency. Gasoline, liquor, tobacco, and other excise taxes which are paid by the manufacturer or wholesaler and passed along to the retailer are also included.

Sales do not include retail sales made by manufacturers, wholesalers, service establishments, and other businesses whose primary activity is other than retail trade. They do, however, include receipts other than from the sale of merchandise at retail (e.g., service receipts, sales to industrial users, sales to other retailers, etc.) by establishments primarily engaged in retail trade.

Although the count of establishments in this volume represents the number in business at the end of the year, the sales figures include sales of all establishments in business at any time during the year. Although nonemployer establishments are included in the tables if they operated at an annual sales volume rate of \$2,500 or more, their reported sales have not been projected to a full year’s operation.

Payroll, entire year—Payroll includes salaries, wages, commissions, bonuses, vacation allowances, and the value of payments in kind (such as free meals, lodgings, etc.) paid during the year to all employees. Gratuities received by employees from patrons are not included. For corporations, it includes amounts paid to officers and executives; it does not include compensation of proprietors or of partners of unincorporated businesses. Payroll is reported before deductions for social security, income tax, insurance dues, etc. Payroll is not limited to “taxable” payroll as reported on IRS Form 941.

Payroll, workweek ended nearest November 15—This item consists of payroll, as defined above, paid to persons on the payroll in the pay period ended nearest November 15, 1963. Establishments with a pay period other than a week were requested to adjust the figures to a weekly basis.

Paid employees, workweek ended nearest November 15—Paid employees consist of the number of employees, including salaried officers and executives of corporations, who were on the payroll for the workweek ended nearest November 15.

Active proprietors of unincorporated businesses—These data are computed by crediting sole proprietorships with one proprietor and partnerships with two proprietors if the establishment was in business during the week of November 15.

KIND-OF-BUSINESS CLASSIFICATIONS

Retail trade, as defined in major groups 52 through 59 of the 1957 edition of the SIC Manual and its supplement¹ issued in 1963, and as covered in the 1963 census, includes establishments primarily engaged in selling merchandise to customers for personal, household, or farm use. Some of the important characteristics of retail trade establishments are: The establishment is engaged in activities to attract the general public to buy; the establishment buys or receives merchandise as well as sells; the establishment may process its products, but such processing is incidental or subordinate to selling; and the establishment is considered as "retail" by the trade.

In this volume, liquor stores operated by State and local governments, classified in SIC major groups 92 and 93, are also included.

Excluded from retail trade are places of business operated by institutions and open only to their own members or personnel, such as restaurants and bars operated by clubs, school cafeterias, eating places operated by industrial and commercial enterprises for their own employees, establishments operated by agencies of the Federal Government on military posts, hospitals, etc.

Establishments covered by the census were assigned a kind-of-business classification in accordance with the provisions of the 1957 edition of the SIC Manual and its supplement, issued in 1963. However, because in some instances a more detailed classification is required for census purposes than is available in the SIC Manual, additional kinds of business have been identified within the SIC categories.

It should be noted that kind-of-business classifications are not interchangeable with commodity classifications. Most businesses sell a number of kinds of commodities. The kind-of-business code assigned generally reflects either the individual commodity or commodity group which is the primary source of the establishment's receipts or some mixture of commodities which characterize the estab-

lishment's business. Thus, the classification of establishments by kind of business generally does not make it possible to determine either the number of establishments handling a particular commodity or the sales of that commodity. For example, the "food group" classification excludes stores selling some food if the sale of food is not the primary source of receipts; moreover, even though stores are classified as "food stores" some of their receipts may be derived from the sale of nonfood products.

As noted in the Introduction under "Method of Enumeration," the 1963 census data are based on reports from two different sources, for "employer" and "nonemployer" establishments. "Nonemployer" establishments were classified on the basis of information supplied on the 1963 Federal income tax returns. Because of the nature of the information available on the tax returns, the kind-of-business classifications for these establishments represent primarily a "self-designation" by the establishments.

"Employer" establishments, on the other hand, were canvassed by mail and required to complete report forms especially designed for this census. These reports on census forms include information on sales by merchandise lines and other classification data which make possible a more uniform system of classification.

Description of those kinds of business for which data are provided follow.

LUMBER, BUILDING MATERIALS, HARDWARE, FARM EQUIPMENT DEALERS (SIC Major Group 52)

Establishments primarily selling lumber, building materials, the basic lines of hardware, paint, wallpaper, glass, electrical supplies, roofing materials, and other supplies and equipment for home construction. Establishments primarily selling farm equipment are also included. Establishments in this group sell to contractors as well as to the general public.

In 1963 the classification information available was more comprehensive than in 1958. On the basis of this information, establishments dealing in lumber and other building materials were classified as "wholesale" if less than 15 percent of their total sales were to the general public. In 1958 an establishment was classified as retail if it reported that any of its sales were to the general public. As a result of this change, about 500 establishments

¹ Executive Office of the President, Bureau of the Budget, **Standard Industrial Classification Manual**, 1957, and **Supplement to 1957 Edition**, 1963.

with sales of approximately \$1½ billion, which under the 1958 rules would have been included in retail trade as either lumber yards or building materials dealers, were classified as wholesale trade.

Lumber yards (Part of SIC 521)—Establishments primarily selling lumber, millwork, and other building materials, such as brick and tile, cement, cinder blocks, sand and gravel, fencing materials, storm doors and windows, wall board, and roofing materials. Establishments are included in this category only if their receipts from sales of lumber and millwork are one-third or more of their total receipts. (See definition of SIC Major Group 52, above.)

Building materials dealers (Part of SIC 521)—Establishments primarily selling either a specialized or a general line of building materials. If lumber and millwork are sold, receipts from sales of these commodities are less than one-third of total receipts. (See definition of SIC Major Group 52, above.)

Heating, plumbing equipment dealers (SIC 522)—Establishments primarily selling plumbing supplies and heating and air-conditioning equipment. Establishments primarily engaged in installation on a contract basis or in repairs are not included in the Census of Business.

Paint, glass, wallpaper stores (SIC 523)—Establishments primarily selling paint, glass and wallpaper, or any combination of these lines. Establishments primarily engaged in installing glass (except auto glass) are not included in the Census of Business.

Electrical supply stores (SIC 524)—Establishments primarily selling electrical supplies, such as lighting fixtures, switches, cable, and fuse boxes for use in homes. Establishments primarily selling electrical appliances are included with "Furniture, Home Furnishings, Equipment Stores" (SIC major group 57).

Hardware stores (SIC 5251)—Establishments primarily selling a number of basic hardware lines, such as tools, builders' hardware, paint and glass, housewares and household appliances, cutlery, and roofing materials. These establishments may also sell farm implements.

Farm equipment dealers (SIC 5252)—Establishments primarily selling farm tractors, reapers, mowers, plows, wagons, and related farm equipment. These establishments may also sell a combination of basic lines of hardware, such as tools, builders' hardware, housewares, cutlery, and related lines.

GENERAL MERCHANDISE STORES (SIC Major Group 53, Except "Nonstore Retailers")

This group includes all establishments within SIC major group 53, "General Merchandise," except for "nonstore" establishments which for purposes of this publication are separately classified. (See last group below.) In the 1958 Census of Business, this group (SIC 53) included a classification, "general stores." This classification has now been eliminated. The stores previously classified as "general stores" are now defined as "grocery stores" if their sales of food accounted for 50 percent or more of total receipts, and as "general merchandise stores" if food sales accounted for less than 50 percent of total receipts.

Department stores (SIC 531)—Establishments normally employing 25 people or more and engaged in selling some items in each of the following lines of merchandise.

1. Furniture, home furnishings, appliances, radio and TV sets.
2. A general line of apparel for the family.
3. Household linens and dry goods.

An establishment with total sales of less than \$5 million, in which sales of any one of these groupings is greater than 80 percent of total sales, is not classified as a department store.

An establishment with total sales of \$5 million or more is classified as a department store even if sales of one of the groups described above is more than 80 percent of total sales, provided that the combined sales of the other two groups is \$500,000 or more. Relatively few stores of this type are included in this classification as a result of this special rule and most of those which are would otherwise have been classified in the apparel group (SIC major group 56).

Limited price variety stores (SIC 533)—Establishments primarily selling a variety of merchandise in the low and popular price ranges, such as stationery, gift items, women's accessories, toilet articles, light hardware, toys, housewares, confectionery. These establishments frequently are known as "5 and 10 cent" stores and "5 cents to a dollar" stores, although merchandise is usually sold outside these price ranges.

Classification of stores in this category is primarily based on self-designation by the store operators.

General merchandise stores (Part of SIC 539)—Establishments primarily selling household

linens and dry goods, and/or a combination of apparel, hardware, homewares or home furnishings and other lines in limited amounts. Establishments which meet the criteria for department stores, except as to employment, are included in this classification. Included in this classification are establishments whose sales of "apparel" or of "furniture and home furnishings" exceed half of their total sales providing that sales of the smaller of the two lines in combination with "dry goods and household linens" accounts for 20 percent or more of total sales.

Dry goods stores (Part of SIC 539)—Establishments primarily selling dry goods, notions, and piece goods.

Sewing, needlework stores (Part of SIC 539)—Establishments primarily selling sewing and knitting supplies and yarn or any combination of these commodities.

FOOD STORES (SIC Major Group 54)

Establishments primarily selling food for home preparation and consumption. Establishments primarily selling prepared food and drinks for consumption on their own premises are classified as "Eating and Drinking Places" (SIC major group 58), and stores primarily engaged in selling packaged beers and liquors are classified separately as "liquor stores" (SIC 592).

Grocery stores, including delicatessens (SIC 541)—Establishments primarily selling (1) a wide variety of canned or frozen foods, such as vegetables, fruits, and soups; (2) dry groceries, either packaged or in bulk, such as tea, coffee, cocoa, dried fruits, spices, sugar, flour, and crackers; and (3) other processed food and nonedible grocery items. In addition these establishments often sell smoked and prepared meats, fresh fish and poultry, fresh vegetables and fruits, and fresh or frozen meats. This classification includes some establishments which under the rules followed in the 1958 Census of Business would have been classified as "general stores" in the "General Merchandise Group."

Meat markets (Part of SIC 542)—Establishments primarily selling meat. These establishments frequently sell poultry, fish, dairy products, eggs, and some groceries. Establishments included in this category reported that "fresh, frozen meat" accounted for more than half of their total receipts and "meat, fish, poultry" sales accounted for 80 percent or more of total receipts. In the 1958 Census of Business establishments were included if they reported that "fresh and frozen meat" accounted for 50 percent or more of their total sales.

Fish (seafood) markets (Part of SIC 542)—Establishments primarily selling fish, oysters and other shellfish, and other seafoods. These establishments frequently sell other food items commonly used in preparing seafood or consumed with seafoods.

Fruit stores, vegetable markets (SIC 543)—Establishments primarily selling fresh fruits and fresh vegetables. They are frequently found in public or municipal markets. These establishments frequently carry a limited line of grocery items. Stands operated by farmers selling only their own produce are not included in the Census of Business.

Candy, nut, confectionery stores (SIC 544)—Establishments primarily selling candy, nuts, or other confections. Operation of a soda fountain or lunch counter is common.

Dairy products stores (SIC 545)—Establishments primarily selling dairy products, such as fluid milk and cream, cheese, ice cream, and sherbets. A limited line of groceries is frequently carried. Establishments which bottle, pasteurize, homogenize, or otherwise process fluid milk are not included in the Census of Business, but are included in the Census of Manufactures (SIC 202).

Retail bakeries, manufacturing (SIC 5462)—Establishments primarily selling bakery products, such as bread, cakes, pies, or cookies, over the counter, some or all of which are baked on their own premises. Bakeries, most of whose products are distributed directly to consumers or to stores by means of route delivery, are not included in the Census of Business but are included in the Census of Manufactures (SIC 205).

Retail bakeries, nonmanufacturing (SIC 5463)—Establishments primarily selling bakery products, such as bread, cakes, pies, or cookies, over the counter. Establishments included in this category do not bake any of the products they sell.

Egg and poultry dealers (Part of SIC 549)—Establishments primarily selling eggs and poultry. A limited line of groceries is frequently carried.

Other (Part of SIC 549)—Establishments, not elsewhere classified, primarily selling specialized lines of food, such as coffee and tea stores, spice shops, health food stores, etc.

AUTOMOTIVE DEALERS (SIC Major Group 55, Except 554)

NOTE: This group does not include establishments primarily engaged in selling trucks and motorized industrial equipment. Such establishments are included in the wholesale trade portion of the Census of Business.

Passenger car dealers, franchised (SIC 551)—Establishments primarily selling new automobiles, or new and used automobiles. These establishments frequently operate repair shops and used car lots and may carry stocks of replacement parts, tires, batteries, and automotive accessories, and may also sell trucks. In some tabulations this category is subdivided to show data separately for establishments which sell (1) new domestically produced passenger cars only, (2) new imported passenger cars only, and (3) new domestic and imported passenger cars. Used car lots and repair shops operated by franchised dealers are not recognized as separate establishments. Data for such operations are consolidated in this category with other data for franchised passenger car dealers.

Passenger car dealers, nonfranchised (SIC 552)—Establishments primarily selling used cars and not holding a franchise for the sale of new passenger cars.

Tire, battery, accessory dealers (Part of SIC 553)—Establishments primarily selling new automobile tires, batteries, automobile seat covers, and automobile parts and accessories. Establishments primarily selling used merchandise in these categories are classified as "secondhand stores" (SIC 5933). Some of the stores which would have been classified in this kind of business in the 1958 Census of Business are classified as "home and auto supply stores" in the 1963 census, as their sales of tire, battery, and accessory items do not account for the majority of their sales.

Home and auto supply stores (Part of SIC 553)—Establishments engaged in selling a combination of lines of merchandise including tires, batteries, and accessories, household appliances, radios and television sets, sporting and recreational goods, toys, housewares, and hardware. This classification is new in this census. Many of the stores included in this classification were previously defined as "tire, battery, accessory dealers."

Aircraft, motorcycle dealers (Part of SIC 559)—Establishments primarily selling new or used motorcycles, aircraft for private (noncommercial) use. Dealers primarily selling parts and supplies for these products to private (noncommercial) users are also included.

Household trailer dealers (Part of SIC 559)—Establishments primarily selling household trailers.

Boat dealers (Part of SIC 559)—Establishments primarily selling motorboats and other watercraft, including motors to private (noncommercial) users.

Other automotive dealers (Part of SIC 559)—Establishments primarily selling automotive products not elsewhere classified.

GASOLINE SERVICE STATIONS (SIC 554)

Establishments primarily selling gasoline and other automotive petroleum products. Establishments called garages but deriving the larger part of receipts from gasoline and oil sales are included.

APPAREL AND ACCESSORIES STORES (SIC Major Group 56)

Establishments in this group are primarily engaged in selling clothing of all kinds and related articles for personal wear and adornment. Not included in this group are the establishments which meet the criteria for department stores or general merchandise stores (SIC 531 and part of 5392), even though most of their receipts are from the sale of apparel and apparel accessories.

Men's, boys' clothing and furnishings stores (SIC 561)—Establishments selling men's, boys' clothing and furnishings. Establishments are included in this category provided (1) their sales of all types of apparel (except as noted in the definition for general merchandise group stores) account for 80 percent or more of total sales, and (2) sales of all men's and boys' apparel are three or more times the sales of all women's and girls' apparel. Establishments primarily selling garments made to customer order are classified as "custom tailors" (SIC 567).

Custom tailors (SIC 567)—Establishments primarily selling outer garments, such as suits, overcoats, uniforms, dresses, etc., made on their own premises to customer order. Establishments primarily selling furs and fur apparel are classified as "furriers, fur shops" (SIC 568).

Women's ready-to-wear stores (SIC 562)—Establishments primarily selling women's and girls' apparel. Establishments are included in this category provided (1) their sales of all types of apparel (except as noted in the definition for general merchandise group stores) account for 80 percent or more of total sales, (2) sales of all women's and girls' apparel are three or more times the sales of all men's and boys' apparel, and (3) sales of women's and girls' coats, suits, and dresses are at least one-third of sales of all women's and girls' apparel. Establishments primarily selling garments made to customer order are classified as "custom tailors" (SIC 567).

Bridal shops (Part of SIC 562)—Establishments primarily selling bridal wear and bridal accessories.

Maternity shops (Part of SIC 562)—Establishments primarily selling maternity wear and accessories.

Millinery stores (Part of SIC 563)—Establishments primarily selling women's hats, including those making hats on their own premises to customer order.

Corset, lingerie stores (Part of SIC 563)—Establishments primarily selling women's foundation garments, underclothing, negligees, robes, and other intimate wear. Establishments primarily engaged in selling foundation garments made or fitted to individual customer order are also included.

Hosiery stores (Part of SIC 563)—Establishments primarily selling women's hosiery.

Apparel, accessory, other specialty stores (Part of SIC 563)—Establishments primarily selling a specialized line of women's and girls' apparel items (such as riding apparel, beachwear, etc.). For establishments specializing in furs and fur apparel, see below. Also included are establishments which meet the definition for women's ready-to-wear stores except that sales of women's and girls' coats, suits, and dresses are less than one-third of sales of all women's and girls' apparel. Establishments which sell men's and boys' apparel in combination with women's and girls' apparel may be classified as "family clothing stores" (SIC 565) under certain conditions, as specified in the definition for that kind of business.

Furriers, fur shops (SIC 568)—Establishments primarily selling furs and fur garments. Establishments primarily engaged in selling fur garments made on their own premises to individual order are also included.

Children's, infants' wear stores (SIC 564)—Establishments primarily selling children's and infants' clothing, furnishings, and accessories.

Family clothing stores (SIC 565)—Establishments primarily selling clothing, furnishings, and accessories for men, women, and children, without specializing in any one line. Establishments are included in this category provided (1) their sales of all types of apparel (except as noted in the definition for general merchandise group stores) account for 80 percent or more of their total sales, (2) sales of all women's and girls' apparel items are not more than three times the sales of all men's and boys' items, and (3) the sales of all men's and

boys' apparel items are not more than three times the sales of all women's and girls' apparel items.

Men's shoe stores (Part of SIC 566)—Establishments primarily selling men's and boys' shoes and other footwear. Establishments selling women's and girls' footwear are included in this classification provided the combined sales of women's and girls', children's, and infants' footwear are less than one-fourth the sales of men's and boys' footwear. See also the definitions for the other types of shoe stores.

Women's shoe stores (Part of SIC 566)—Establishments primarily selling women's and girls' shoes and other footwear. Establishments selling men's and boys' footwear are included in this classification provided the combined sales of men's, boys', children's, and infants' footwear are less than one-fourth the sales of women's and girls' footwear. See also the definitions for the other types of shoe stores.

Children's, juveniles' shoe stores (Part of SIC 566)—Establishments primarily selling children's and infants' shoes and other footwear. Establishments selling men's, boys', women's, and girls' footwear are included in this classification provided the combined sales of all of these are less than one-fourth the sales of children's and infants' footwear. See also the definitions for the other types of shoe stores.

Family shoe stores (Part of SIC 566)—Establishments primarily selling shoes and other footwear. Establishments in this classification sell both men's and women's shoes, and may or may not sell children's shoes. The sales of any one of the three major groupings (men's and boys' footwear, women's and girls' footwear, and children's and infants' footwear) are not more than three times the sales of the other two groupings combined. If children's and infants' footwear are not carried, sales of the larger of the two remaining groupings are not more than three times the sales of the smaller. See also the definitions for the other types of shoe stores.

Miscellaneous apparel, accessory stores (SIC 569)—Establishments primarily selling specialized lines of apparel and accessories not elsewhere classified.

FURNITURE, HOME FURNISHINGS, AND EQUIPMENT STORES (SIC Major Group 57)

Establishments primarily selling merchandise used in furnishing the home, such as furniture, floor coverings, draperies, glass and

chinaware, domestic stoves, refrigerators, and other household electrical and gas appliances, including radio and TV sets. Also included are musical instrument stores and music and record shops.

Furniture stores (SIC 5712)—Establishments primarily selling household furniture, mattresses, springs, and other sleep equipment. Also included in this classification are establishments selling household appliances, record players and radio and TV sets, provided the receipts from sales of furniture and sleep equipment exceed those from sales of the other commodity lines named.

Floor coverings stores (SIC 5713)—Establishments primarily selling any kind or combination of floor coverings, such as rugs, carpets, linoleum, tile (rubber, vinyl, asphalt, cork), and related products.

Drapery, curtain, upholstery stores (SIC 5714)—Establishments primarily selling draperies, curtains, slipcovers, and upholstery materials. Establishments primarily selling custom-made draperies and slipcovers for household use are also included.

China, glassware, metalware stores (SIC 5715)—Establishments primarily selling china, glassware, crockery, tinware, enamelware, aluminumware, stainless steel flatware, cutlery, and other metalware for table and kitchen use. Establishments primarily selling sterling or plated silver flatware or tableware are classified as "jewelry stores" (SIC 597).

Miscellaneous home furnishings stores (SIC 5719)—Establishments primarily selling specialized lines of home furnishings not elsewhere classified, such as lamps and lampshades, blinds and window shades, picture frames and mirrors, etc.

Household appliance stores (SIC 572)—Establishments primarily selling electric and gas household appliances, such as washers, dryers, refrigerators, stoves, freezers, vacuum cleaners, sewing machines, dehumidifiers, self-contained room air conditioners, etc. Also included are establishments selling furniture, sleep equipment, record players, radio and TV sets provided the receipts from the sales of household appliances exceed those from the sales of the other commodities mentioned.

Radio and television stores (SIC 5732)—Establishments primarily selling radios, television sets, record players, and tape recorders. Also included are establishments selling furniture, sleep equipment, and household appliances

provided the receipts from sales of record players, radio and TV sets, and tape recorders exceed those from sales of the other commodities mentioned.

Record shops (Part of SIC 5733)—Establishments primarily selling phonograph records and albums.

Musical instrument stores (Part of SIC 5733)—Establishments primarily engaged in selling musical instruments, such as organs, pianos, horns, stringed instruments, drums, xylophones, etc.

EATING AND DRINKING PLACES (SIC Major Group 58)

This group included a classification "railroad dining-car facilities" in the 1958 Census of Business completely omitted from the 1963 Census of Business.

Restaurants, lunchrooms (Part of SIC 5812)—Establishments primarily selling prepared foods and drinks for consumption on their own premises. Establishments included in this group may offer table service or counter service or both.

Establishments in which sales of alcoholic beverages for consumption on the premises exceed receipts from sales of prepared foods and nonalcoholic beverages are classified as drinking places (SIC 5813).

Cafeterias (Part of SIC 5812)—Establishments primarily selling prepared foods and drinks for consumption on their own premises. In these establishments customers serve themselves.

Refreshment places (Part of SIC 5812)—Establishments primarily selling limited lines of refreshments and food items for immediate consumption. Establishments engaged in selling ice cream, frozen custard, soft ice cream, and similar refreshment items from trucks are included in this classification. In the 1958 Census of Business these establishments were classified as "direct selling (house-to-house) organizations" in the "Nonstore Retailers" group. In the 1958 Census of Business establishments calling themselves "refreshment places" were defined as restaurants if they reported having facilities for seating 5 or more customers.

In this census establishments have been included in this kind of business if they reported themselves as refreshment places regardless of their seating facilities. As a result some places which would have been classified as "restaurants, lunchrooms" in 1958 are now included in this classification.

Caterers (Part of SIC 5812)—Establishments primarily selling prepared foods which are served at a place designated by the customer. Establishments calling themselves caterers but which do not sell prepared foods as part of their business activity are not included in this category.

Drinking places (alcoholic beverages) (SIC 5813)—Establishments primarily selling drinks, such as beer, ale, wine, liquor, and other alcoholic beverages for consumption on their own premises.

DRUG STORES AND PROPRIETARY STORES (SIC 591)

Drug stores (Part of SIC 591)—Establishments which fill and sell prescriptions. These establishments also sell drugs and proprietary medicines and other health and first-aid products. Usually these establishments sell a variety of other merchandise, such as cosmetics, toiletries, candy, tobacco products, magazines, toys, etc. These establishments are further subdivided, in some tabulations, to present data separately for those which operate a fountain or lunch counter and those which do not.

Proprietary stores (Part of SIC 591)—Establishments generally selling the same merchandise as drug stores, except that prescriptions are not filled and sold.

OTHER RETAIL STORES (SIC Major Group 59, Except SIC 591)

Liquor stores (SIC 592), also government-operated liquor stores (Part of SIC major groups 92 and 93)—Establishments primarily selling packaged alcoholic beverages, such as ale, beer, wine, and whiskey for consumption off the premises. Liquor stores operated by States, counties, and municipalities are included. Stores primarily selling prepared drinks for consumption on the premises are not included in this category but are classified with drinking places (SIC 5813).

Antique stores (SIC 5932)—Establishments primarily selling antique furniture and home furnishings, glassware, and objects of art.

Secondhand stores (SIC 5933)—Establishments primarily selling any combination of secondhand merchandise, such as apparel, furniture, appliances, etc. Establishments selling used automobiles, household trailers, motorcycles, aircraft, and boats are classified in the "Automotive Dealers" group (SIC major group 55, except 554).

Book stores (SIC 5942)—Establishments primarily selling new books and periodicals.

Stationery stores (SIC 5943)—Establishments primarily selling stationery items, such as writing paper, tablets, accounting forms, legal forms, greeting cards, post cards, and school and office supplies.

Sporting goods stores (SIC 5952)—Establishments primarily selling a general or specialized line of sporting goods and equipment for hunting, camping, fishing, skiing, riding, tennis, golf, and other sports, and gymnasium and playground equipment.

Bicycle shops (SIC 5953)—Establishments primarily selling bicycles and bicycle parts and accessories.

Hay, grain, feed stores (SIC 5962)—Establishments primarily selling hay, grain, and feed. Establishments in this classification frequently sell other farm supply items.

Other farm supply stores (Part of SIC 5969)—Establishments primarily selling farm supplies other than hay, grain, and feed.

Garden supply stores (Part of SIC 5969)—Establishments primarily selling grass and flower seeds, bulbs, nursery stock, garden tools, and other farm and garden supplies. Nurseries and greenhouses are not within the scope of the Census of Business.

Jewelry stores (SIC 597)—Establishments primarily selling any combination of the lines of jewelry, such as diamonds and other precious stones; rings, bracelets, and brooches, sterling and plated silverware; and watches and clocks.

Coal and wood dealers (Part of SIC 5982)—Establishments primarily selling coal, wood, charcoal or coke, or a combination of these lines.

Ice dealers (Part of SIC 5982)—Establishments primarily selling ice.

Fuel oil dealers (SIC 5983)—Establishments primarily selling fuel oil.

Liquefied petroleum (LP) gas dealers (SIC 5984)—Establishments primarily selling liquefied petroleum gas, either in bulk or bottled.

Florists (SIC 5992)—Establishments primarily selling cut flowers and growing plants. Greenhouses and nurseries are not included in the Census of Business.

Cigar stores, stands (SIC 5993)—Establishments primarily selling cigars, cigarettes, tobacco, and smokers' supplies. Many of the establishments included in this classification are operated as concessions in places of amusement, railway stations, airports, and other public places.

News dealers, newsstands (SIC 5994)—Establishments primarily selling newspapers, magazines, and other periodicals, either by delivery to the home, on the street, or from stands or stores.

Camera, photographic supply stores (SIC 5996)—Establishments primarily selling cameras, film, and other photographic equipment and supplies.

Gift, novelty, souvenir shops (SIC 5997)—Establishments primarily selling combined lines of gift and novelty merchandise, souvenirs, small art goods, greeting cards, and holiday decorations.

Optical goods stores (SIC 5998)—Establishments primarily selling eyeglasses and related optical and ophthalmic goods. Establishments engaged in prescribing glasses are included if they also supply glasses. A change in the procedure involved in the canvass of these establishments has substantially improved coverage as compared with the 1958 census.

Typewriter stores (Part of SIC 5999)—Establishments primarily selling typewriters. Limited amount of office machines and supplies as well as typewriter parts and supplies are also frequently sold. Dealers primarily engaged in selling office machines and equipment other than typewriters are included in the wholesale trade (SIC 5082) segment of the Census of Business.

Luggage, leather goods stores (Part of SIC 5999)—Establishments primarily selling trunks, hand luggage, and leather items.

Hobby, toy, game shops (Part of SIC 5999)—Establishments primarily selling toys, games, and hobby kits and supplies. Establishments primarily selling artists' supplies, or collectors' items (coins, stamps, autographs) and supplies are classified as "Other," the last classification listed in this group.

Religious goods stores (Part of SIC 5999)—Establishments primarily selling religious goods, such as Bibles, prayer books, hymnals, church and Sunday school supplies, communion supplies, rosaries, and religious statues, medals, jewelry, and pictures.

Pet shops (Part of SIC 5999)—Establishments primarily selling pets, e.g., dogs, cats, birds, rabbits, tropical fish, and equipment for housing and caring for pets, and other pet supplies.

Other (Part of SIC 5999)—Establishments primarily selling specialized lines of merchandise, such as collectors' items and supplies, artists' supplies, orthopedic and artificial limbs, drafting materials, hearing aids, rubber stamps,

monuments and tombstones, and other lines not elsewhere classified.

NONSTORE RETAILERS (Part of SIC Major Group 53)

Mail-order houses (SIC 532)—Establishments primarily engaged in distributing merchandise through the mail as a result of mail orders received. Each establishment of organizations which operate both mail-order houses and other retail establishments is classified on the basis of its own operations. Consequently, the mail-order houses of such organizations are included in this classification while their other establishments are included in whichever of the above kind-of-business classifications is appropriate to their operation. Mail-order houses are divided into subclassifications on the basis of the merchandise they sell in the same manner as the store-type classifications.

In this census the locations operated by mail-order houses to accept orders from their catalogs are classified as separate nonstore establishments. In 1958 these were considered a part of the mail-order house. The effect of this change is to increase the count of nonstore establishments and to report the employment, payroll, and sales of such locations in the place at which they are located instead of in the city in which the mail-order house is located.

Merchandise vending machine operators (SIC 534)—Establishments primarily engaged in the sale of merchandise through coin-operated vending machines which generally are located on the premises of other businesses. Since a large number of merchandise vending machine operations are conducted in conjunction with the operations of manufacturing plants, and of wholesale and other establishments not classified in retail trade, data for "retail" merchandise vending machine operators should not be interpreted as providing a measure of total sales through merchandise vending machines. The data for "retail" merchandise vending machine operators also do not include sales made through vending machines owned by establishments classified in other kinds of retail trade. Merchandise vending machine operators are divided into subclassifications on the basis of the merchandise sold in the machines on location as of the end of the census year.

Direct selling (house-to-house) organizations (SIC 535)—Establishments which solicit and distribute their products by house-to-house canvass. When the canvassers are employed by the organization which they represent, the "establishment" is the location from which

they operate. However, many of the important organizations whose products are distributed in this manner utilize self-employed canvassers as their representatives. Each such canvasser is counted as an "establishment" in this report. As a result, the "number of establishments" data are considerably larger than would be the case if the count were based on the primary organizations whose products are being distributed. Establishments in operation throughout the census year were included if their annual sales were \$2,500 or more; establishments in operation during part of the census year were included only if their sales were at an annual

rate of \$2,500 or more. Consequently, the "number of establishments" in this category should not be interpreted as being a count of the total number of self-employed canvassers. Direct selling (house-to-house) organizations are divided into subclassifications on the basis of the merchandise they sell in the same manner as the store-type classification. Establishments selling ice cream and other frozen refreshment items from trucks were included in this classification in the 1958 Census of Business but are now included with refreshment places (part of SIC 5812).
